Announcement

Edit Option in Review for Pakistan Online Visa System (POVS) Applicants

The National Database & Registration Authority of Pakistan (NADRA), has incorporated an additional feature in Pakistan Online Visa System (POVS), as per requirement of all the stakeholders. With addition of this new feature, the applicant will be able to edit the following fields if the application is sent back to him for "Review" by the concerned stakeholder:

1. Surname
2. Given name
3. Date of Birth
4. Passport number
5. Requested visa duration

Upon resubmission of application with any of the edits made by the applicant, the application process will start again.

Even with the above additional feature, it may be noted that if the applicant makes a mistake in any other field (not mentioned above), then the application has to be cancelled and applicant may be asked to apply afresh.
